Applicant's election of Group I-Figures 1-6 in the reply filed on 7/10/2008 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim 9 has been withdrawn from consideration; and

Claims 1-8 and 10-16 are herein address below.

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

The applicant's information disclosure statement dated 5/5/2005 has been considered and a copy has been placed in the file.

The drawings are objected to because it is not readily apparent how Figures 4-6 are incorporated into/with Figures 1, 2, and/or 7-9. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief

description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claims 1-8 and 10-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 1, it is not readily understood by the Examiner if the applicant is claiming an apparatus or an apparatus in combination with a door and vehicle. Throughout the claims, the applicant clearly and positively sets forth the door and the vehicle. In claim 1, lines 1 and 3 (and throughout the remainder of the claims), the applicant recites a first and second position. Are these the same "positions" that are recited in claim 1, lines 1-2? Consistency should be maintained throughout the claims. In claim 3, line 3, the phraseology "initiated rapidly" is not readily understood by the Examiner. In claim 3, lines 5-6, specifically, what is meant by "the shape of said gas generating chemical"? In claim 5, line 2, there is a lack of antecedent basis for "said source". In claim 11, line 6, there is a lack of antecedent basis for "the arming member" and "the armed position". In claim 12, lines 3 and 7, the

Art Unit: 3634

applicant recites "an arming member" and "said arming member". Are these the same "arming member" that is recited in claim 8? Consistency should be maintained throughout the claims. In claim 15, lines 1 and 4, it is not readily apparent to the Examiner if the applicant is claiming an apparatus or an apparatus in combination with a door. Throughout claims 15-16, the applicant recites the door.

Depending on the applicant's amendments, claims 1-8 and 10-16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Various patents have been cited which disclose elements similar to that of the applicant's invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerry Redman whose telephone number is 571-272-6835. The examiner can normally be reached on M-F from 8 to 6.
